**MOBILE HEALTH CLINICS IN THE WEST BANK**

**FEBRUARY 2018**

### WHAT IS A MOBILE HEALTH CLINIC?
- The mobile health clinics serve communities in Area C, H2 and seam zones that have no access to primary healthcare services.
- The mobile health clinics include a doctor, nurse and midwife. They provide primary health care services for a community and also provide curative treatment and some laboratory tests on a daily basis.
- The clinic is registered and licensed to practice by the MOH.
- The clinic visits each community at least 4 times per month.
- There is an established referral mechanism with basic rehabilitation care providers.

### COMMUNITIES SERVED BY MOBILE HEALTH CLINICS

- **Functioning**: 72
- **At risk**: 82
- **Closed**: 35

*Some communities received complementary health services from more than one mobile team (Partner).*
