</table>

- Next step:
  - Design a “tick box” discharge form for hospitals that includes the availability of services and contacts of the different providers
Limb Reconstruction

- Agreement on the definitions
  - Early limb reconstruction
  - Late limb reconstruction
- Agreement on the principle that a single centralized, well equipped, limb reconstruction unit and microbiology lab, would be beneficial for the patients and for the system
  - Center of excellence for limb reconstruction and osteomyelitis treatment
- Next step:
  - Bring together MoH and partners to discuss the way forward
TSP Workshop

• Agreement on the general concepts, design, equipment, HR composition and training needs

• Next step:
  • Finalize the report and present it to MoH for endorsement.
  • Initiate procurement process
  • Identify provider for training
  • PTC ? ERTC ? MoH instructors ?

</table>
Way Forward

• Meet with MoH to discuss:
  • Introduction of WHO standard trauma form and WHO trauma care checklist in hospitals
  • EMT-CC Setup
  • Endorsement of TSP-WS report
  • Limb reconstruction strategy
