

Minutes of the Mobile Clinics Working Group Meeting

Convened by: Health Cluster Coordinator

Meeting Notes taken by: Health Cluster Coordinator

**Date: 24 November 2020
Time: 1300-1400hrs**

Venue: Virtual Microsoft Teams

AGENDA

Updating the 4Ws
Plans to roll out HeRAMS
AOB, action points and closing

Participants: MoH, UNFPA, MSF-Spain, HWC, UNRWA, MAP-UK, MdM Spain, PHR, Holy Family Hospital, Jerusalem Princess Basma Centre

Key issues Raised

Updating the mobile clinics 4Ws

- There is need for the information on partners providing mobile clinic services to be updated, so that new partners and those that want to expand their activities easily identify locations that are not covered.
- All partners are advised to update the Excel document that will be shared with these minutes
- MoH indicated that they are interested in opening 13 mobile clinics

Plans to roll out HeRAMS

- After the successful implementation of the Health Resources Availability Mapping System (HeRAMS) in the Gaza Strip, the Health Cluster would like to introduce a similar system in the West Bank for mobile clinics.
- HeRAMS has been developed to support the collection, collation, management, analysis and dissemination of indicators dealing specifically with the aspects of Resources and Services Availability which are key in respect to the functions of the Health Cluster.
- Discussions are currently underway with WHO regional and HQ offices to receive guidance on how the system would work for mobile clinics

Any other business

- Partners need to ensure quality service provision
- Important for MoH and the Cluster to organise and conduct joint monitoring and technical support visits to mobile clinics

Action Points

Responsible

Update the mobile clinics 4Ws tables and return to the Cluster by COB 2 December

All partners

MoH to share locations of the 13 new mobile clinics they intend on opening

MoH

Organise monitoring and technical support visits

Health Cluster and MoH

Develop a monitoring tool

Health Cluster

Update the minimum package document (please have a look at the one-pager sent with these minutes, and provide input)

Health Cluster

Progress on HeRAMS discussions
