

HRP 2022 Monitoring Framework

Cluster objective 1 related to Strategic Objective 2		
Ensure the availability of acceptable and quality essential healthcare services to vulnerable communities in oPt		
Outcome level indicator		
# of most vulnerable people in opt accessing quality lifesaving health interventions by type of service, including primary healthcare, nutrition, child health, sexual and reproductive health, including SGBV, mental health and psychosocial support (MHPSS), healthcare for elderly, and rehabilitation services for people with disabilities (PwD) (sex, age and disability disaggregated indicator)		
1. Provide L2 PHC health care and specialized services using mobile clinics, including consultations, supply of drugs/equipment/ disposables, and prevention and referral of SGBV		
1.1	# of people benefited from L2 PHC mobile services	People
1.2	# of people benefited from specialized mobile services	People
1.3	# of people directly benefitting from awareness sessions on health / nutrition education	People
1.4	# of mobile clinics health workers/community volunteers trained on different health topics	Health workers
1.5	# of SGBV/MHPSS cases referred to specialized health facilities by a mobile clinic	Cases
2. Deliver essential elective surgery, emergency, and trauma care at all levels of the pathway, through life- and limb-saving training, triage and injury protocols, deployment of emergency medical teams, timely data, and multidisciplinary rehabilitation		
2.1	# of EMS Operation Cell supported	Cells
2.2	# of cases received frontline / prehospital care	Cases
2.3	# of cases received care in the emergency department using a standard validated triage tool and vital signs monitoring	Cases
2.4	# of emergency surgical interventions conducted	Interventions
2.5	# of patients treated for limb reconstruction / specialized surgeries	Patients
2.6	# of patients treated for post-operative/ rehabilitation care	Patients
2.7	# of people benefited from deployed EMTs	People
2.8	# of people benefited from procured medical supplies	People
2.9	# of health workers trained on emergency and trauma related care	Health workers
2.10	# of patients benefitted from provision of elective surgery intervention	Patients
3. Provide essential medical supplies (medicines, disposables, blood components, etc) for acutely vulnerable NCD patients and preventive activities at the community level		
3.1	# of NCD patients benefitted from access to medicines (cancer, diabetic >60 and <18, Cardiovascular diseases >60, and patients with kidney failure)	Patients
3.2	# of people benefited from advanced cardiovascular and renal surgeries	people
3.3	# of people benefited from advanced diabetic foot management	People
3.4	# of people benefited from palliative care	People
3.5	# of healthcare workers providing NCD treatment trained on NCD management	Health Workers
3.6	# of people directly benefiting from NCD awareness sessions	People
4. Provide access to healthcare and nutrition that prevent excessive maternal and newborn morbidity and mortality by ensuring availability of preconception care, clean and safe delivery, essential newborn care, safe spaces, and emergency obstetric services are available at all times		
4.1	# of neonates receiving healthcare services in NICUs	Neonates

4.2	# of neonates benefited from procured medical supplies	Neonates
4.3	# of < 5 children receiving health and nutrition interventions, including those with PKU, Cystic Fibrosis, Metabolic disorders, and Congenital Deformity that require medical intervention	Children
4.4	# of < 5 children benefited from procured medical supplies	Children
4.5	# of women in reproductive age, pregnant and lactating women receiving maternal and nutrition services	Women
4.6	# of women in reproductive age, pregnant and lactating women benefited from procured medical supplies	Women
4.7	# of facilities with safe spaces for children <5 and lactating women	Facilities
4.8	# of female adolescents benefited from nutritional supplements, hygienic kits, and awareness sessions	Adolescents
4.9	# of healthcare workers trained on Sexual Reproductive and Maternal Child Health and Nutrition (SRMCHN)	Health Workers
4.10	# of people benefitted from awareness sessions on SRMCHN	People
5. Deliver multidisciplinary management of neglected people with disabilities (PwD) including rehabilitation services, psychosocial support and community awareness on disabilities and other cross cutting issues.		
5.1	# of PwDs with access to multidisciplinary rehabilitation	People
5.2	# of health facilities adapted to increase accessibility by PwDs	Facilities
5.3	# of healthcare workers trained of inclusive healthcare services	Health Workers
5.4	# of people directly benefiting from disability care awareness sessions	People
6. Deliver MHPSS services for moderate and severe cases ensuring inclusion of marginalized people and those exposed to traumatic events through integration of MH into all health facilities, inclusion of child mental health, raising awareness and destigmatization, strengthening referral mechanism, capacity building for healthcare workers and provision of essential psychotropic medicines.		
6.1	# of patients benefitted from MHPSS services	Patients
6.2	# of people benefitted from procured medical supplies	People
6.3	# of trained healthcare providers and community workers on MHPSS, including mhGAP	Service Providers
6.4	# of people benefited from mental health awareness / destigmatization sessions	People
6.5	# of people referred to specialized MH services	People

Cluster objective 2 related to Strategic Objective 3		
Strengthen the healthcare system's capacity to respond to emergencies and build community resilience to cope with the impact of current and future crises		
Outcome level indicator		
# of healthcare facilities and healthcare workers with capacity to respond to emergencies (including COVID-19) and are prepared to cope with impact of current and future crises		
9. Support COVID-19 response and management of other outbreak-related communicable diseases focusing on diagnosis, case management, infection prevention, vaccination and Risk Communication and Community Engagement (RCCE)		
9.1	# of people tested to detect outbreak-related communicable diseases including COVID-19	People
9.2	# of people/ healthcare workers benefitted from procured medical supplies	People
9.3	# of people fully vaccinated against COVID-19	People
9.4	# of people benefitted from RCCE activities	People

9.5	# of healthcare workers trained on laboratory testing and case management, and basic/advanced ICU	Health Workers
9.6	# of non-medical staff and community health workers benefitted from training, awareness, and provision of hygienic kits	Staff
10. Enhance surveillance and preparedness within the health sector to better deal with sudden onset events, such as heightened conflict and disease outbreak, through prepositioning of medical supplies, capacity building, enhanced coordination, and communication.		
10.1	# of healthcare facilities with prepositioned medical supplies	Facilities
10.2	# of people benefitted from prepositioned medical supplies	People
10.3	# of healthcare workers trained on emergency preparedness, surveillance, and early detection of communicable diseases	Health Workers
10.4	# of trained staff on rapid response to disease outbreaks	Health Workers

Cluster objective 3 related to Strategic Objective 1		
Advocate for unhindered and equitable access to healthcare and protection of the right to health for all, including the most vulnerable in oPt		
Outcome level indicator		
# of patients, companions and healthcare workers benefitting from documentation, monitoring and advocacy activities (sex, age and disability disaggregated indicator)		
7. Document and monitor barriers to healthcare services access, including for patients, companions and health workers requiring permits to reach essential healthcare services, as a basis for evidence-based advocacy.		
7.1	# of patients requiring Israeli permits who are able to access essential healthcare services	Patients
7.2	# of health workers denied Israeli permits to reach their place of work	Health Workers
7.3	# of patients denied back-to-back ambulance services at checkpoints	Patients
8. Document and monitor availability of key health care resources and attacks on healthcare as a basis for prevention efforts and evidence-based advocacy		
8.1	# of agencies contributing to documentation of attacks on healthcare	Agencies
8.2	# of partners benefitted from the implementation of HeRAMS	Partners
8.3	# of incidences reported through the Surveillance System for Attacks on health care	Incidences
8.4	# of health workers benefitted from monitoring and protection interventions	Health workers
